Disclaimer

This presentation is not to be construed as a public offering or offering memorandum of the Company's securities in any jurisdiction. The information in this presentation is for information purposes only. It is not intended as investment, financial or other advice. Unless noted otherwise, all financial information contained herein should be considered unaudited. There is a risk that audited information will differ significantly from the financial information presented herein and that technical and financial assumptions, objectives and projections may fail to materialize. The information provided herein is management's best understanding as of this date of the potential of the Company and the related financial benefits, but it is the responsibility of the potential investor to form its own opinion contrasting the information provided with other sources of information for completeness and reasonableness.

Forward-Looking Statements

Certain information set forth in this presentation contains "forward-looking information", including "future-oriented financial information" and "financial outlook", under applicable securities laws (collectively referred to herein as forward-looking statements). Except for statements of historical fact, the information contained herein constitutes forward-looking statements and includes, but is not limited to, the (i) projected financial performance of the Company; (ii) completion of, and the use of proceeds from, the sale of any shares being offered hereunder; (iii) the expected development of the Company's business, projects, and joint ventures; (iv) execution of the Company's vision and growth strategy, including with respect to future M&A activity and global growth; (v) sources and availability of third-party financing for the Company; (vi) completion of the Company's initiatives that are currently underway, in development or otherwise under consideration; (vii) renewal of the Company's current customer, supplier and other material agreements; and (viii) future liquidity, working capital, and capital requirements. Forward-looking statements are provided to allow potential investors the opportunity to understand management's beliefs and opinions in respect of the future so that they may use such beliefs and opinions as one factor in evaluating an investment.

These statements are not guarantees of future performance and undue reliance should not be placed on them. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause actual performance and financial results in future periods to differ materially from any projections of future performance or result expressed or implied by such forward-looking statements. Risks and uncertainties include those stated in the

Management Discussion and Analyses for the second quarter ended June 30, 2024, and the year ended December 31, 2023, and in the Company's other public filings on the Canadian Securities Administrators' website at www.sedarplus.ca.

Although forward-looking statements contained in this presentation are based upon what management of the Company believes are reasonable assumptions, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The Company undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change except as required by applicable securities laws. The reader is cautioned not to place undue reliance on forward-looking statements.

Confidentiality

The information contained in this presentation is for discussion purposes only and is strictly confidential information of the Company. This presentation is furnished to you on a confidential basis solely for the purpose of providing you with information regarding the Company. By your acceptance hereof, you covenant that neither you nor your agents, representatives, directors or employees will copy, reproduce or distribute this presentation or the information herein to others, in whole or in part, at any time, without the prior written consent of the Company and that you will keep confidential this presentation, the information herein and any information otherwise obtained from the Company.

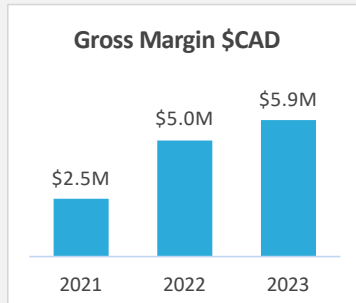

Plurilock Security Inc.

TSX.V PLUR • OTCQB PLCKF

Business Overview

Our Solutions Division serves as a base from which to farm for higher margin services to realize margin expansion.

- **Solutions Division** (Aurora & Integra) providing a full line of leading IT and cybersecurity solutions, with established sales relationships, master service agreements, and trusted / ARR like repeatable purchasing contract behavior across governments and enterprises
- **Managed and Project Services** (Plurilock Critical Services) providing enterprise cybersecurity and resilience engineering sold direct and indirect through Solutions Division
- **Proprietary SaaS software** (Plurilock AI) provides an all-in-one cloud and identity protection platform for commercial customers, sold both direct and indirect through our Solutions Division

Plurilock provides IT and cybersecurity solutions to government and commercial clients in jurisdictions across North America and NATO countries. We operate a portfolio of mature brands with strong name recognition in the marketplace.

US Govt
NASA, DoD, DHS, etc.

Canada Govt
DND, CATSA, RCMP, etc.

US Fortune 2000 Companies
Names under NDA

Highly Desirable Platform

Stable base of customers USA & Canada

Long-term relationships, master service agreements, and government contracts

“Plurilock has built a vertically integrated business model!”

Our Corporate Strategy

Acquire distribution, embed Critical Services team members, then identify needs to drive software products.

We acquire distribution

to mid-market, enterprise, and public sector accounts in North America and allied countries

THREE DISTRIBUTION ACQUISITIONS

We embed services team members

in customer organizations that function as extensions of the CISO

LAUNCH OF DEDICATED CRITICAL SERVICES UNIT

We identify and launch software products

based on gaps identified by our teams in customer environments

**PLURILOCK AI PLATFORM
IDENTITY PATENTS DLP PATENTS**

Q2 2024 Highlights Recap

+98%
Critical Services
 year-over-year growth

Driving Margin Expansion

- Plurilock Critical Services 11.5% of total revenue mix, up from 6.0% in Q2 23

\$2M
Gross Profit
 +42% year over-year

Path to Profitability

- Gross Profit \$2.0M vs. \$1.4M in Q2 23, continue to prioritize high-end cyber consulting

Adjusted EBITDA improved to a loss of \$0.6M in Q2 2024 from a loss of \$1.0M in Q2 2023 as a result of stronger margins and cost synergies versus the prior year

Industry Advisor Additions

- H. Bryan Cunningham** (July 15)
Former White House lawyer, CIA officer, & Palantir (NYSE: PLTR) senior advisor
- Joe Sexton** (July 16)
Former AppDynamics President, McAfee EVP, & CrowdStrike (NSDQ: CRWD) board member
- Brian Aebig** (July 30)
35-year enterprise technology & solutions sales veteran, responsible for over \$2B in sales
- Ron Wilson** (August 19)
President of Best Buy Canada, led the consolidation of Future Shop

Expanding Relationships

- \$900k sale to Canadian Federal Govt Agency
- US\$6.2M total contract with U.S. Treasury
- New sales to U.S. Department of Transportation
- Multiple contracts with existing customers

We Sell Into a \$2 Trillion Annual Cybersecurity Market¹

Cybersecurity is a daily global crisis. Companies and governments are struggling to catch up.

International Conflict

Hot Conflicts

- War in Ukraine, Conflict in Israel

Gray Zone

- Continued “gray zone” conflict between nation-states

More Cyber Threats

- Growth in attacks and overall attacker count²
- Cyber losses up 74% year over year³

Increasing Regulation

Political Pressure

- Conflict and cyber-vulnerability creating increased cybersecurity pressure on leadership

Regulatory & Insurance

- Penalties for running afoul of regulation continue to increase, regulators like SEC increasing scrutiny^{3,4,5}
- Cyber insurance more expensive, harder to get, and keep⁶

Continued Skill Shortage

Skills in Short Supply

- Deep and growing shortage in skilled cybersecurity labor, 4 million cyber jobs unfilled⁷

Solutions Needed

- The need is thus for solutions providers, not vendors
- Simply buying products is not feasible when there is a shortage of labor and skills to deploy and operate them

Plurilock Critical Services

Newly formed Critical Services team growing fast—and a key contributor to margin expansion.

Plurilock Critical Services is designed to optimize product-to-market fit. It leverages the highly skilled engineers at Plurilock to solve critical issues for multibillion dollar companies that have an immediate and pressing need for a solution to a critical issue.

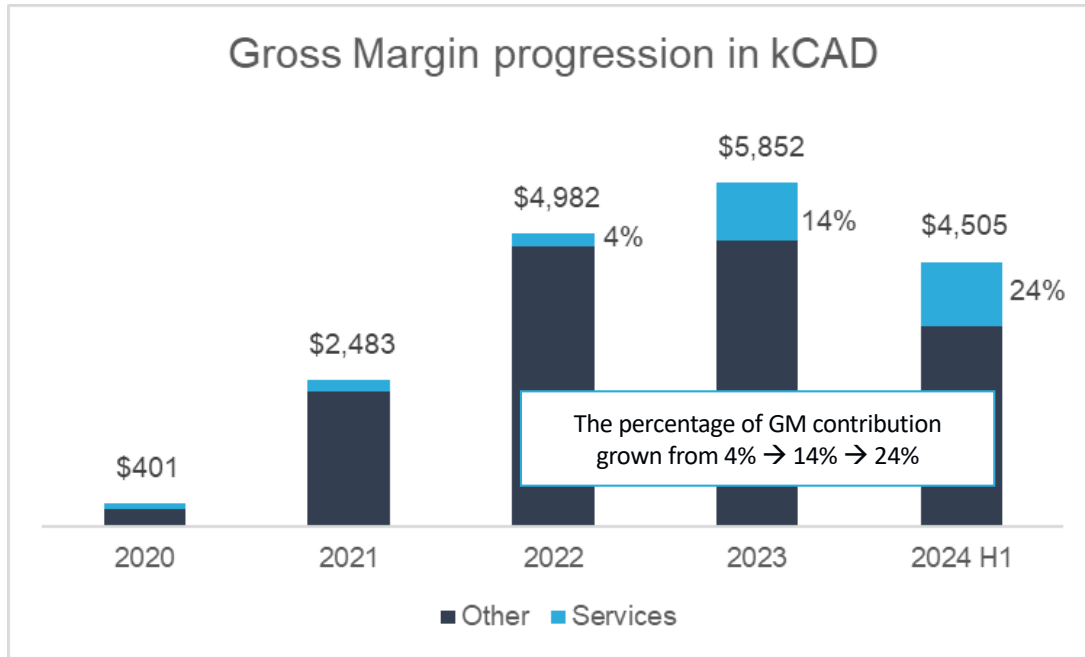

Average of 134% CAGR (dotted line)

- Reorganized ad-hoc professional services engagements to new “Critical Services” team.
- Overhauled program management to drive profitable growth:
 - Replaced leadership
 - Increased billable rate by offloading non-billable work to support personnel
 - Increased # of billable resources by re-allocating cybersecurity engineers from R&D cost center to revenue center
- Farming customers from Solutions Division.
- Targeting multinationals hit by conflict (Ukraine, Israel), regulation (GDPR, CHIPS), or with business, technology, or geopolitical issues.
- Winning deals over incumbent “Big 4” competitors by:
 - Using existing master service agreements from Solutions Division
 - Leveraging advisory council of globally recognized experts to open doors and close deals
 - Recommending automated solutions using AI, from our DNA of building AI products, versus staffing large team of consultants from ‘the bench’

We expect growth in Critical Services to improve gross and operating margins for the company.

Trending Toward Breakeven

Critical Services is driving a growing share of gross profit.

- Critical Services sales opportunities trending at 35–55% gross margin, and growing 134% CAGR
- Growth of gross margin averaging \$1.7M per quarter TTM, gross margin contribution grown from 4% to 14% YoY

Plurilock AI SaaS Platform

All-in-one identity and data protection to reduce risk and comply with regulations.

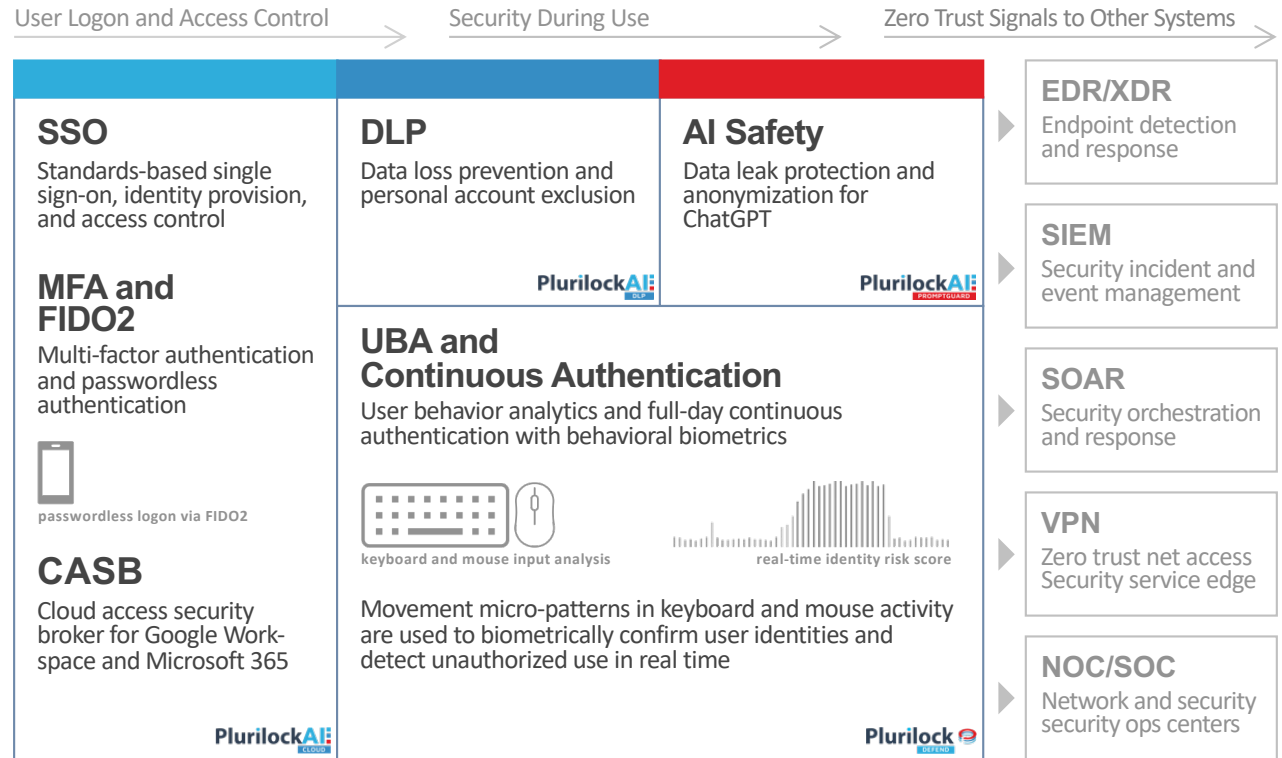

Advanced, Multi-patented Zero Trust Security Platform

Plurilock AI is a proprietary, SaaS-based security platform that provides SSO, MFA, CASB, DLP, UBA, and continuous authentication capabilities to a worldwide list of customers.

Plurilock AI is affordable and usable vs. competing solutions, leading Info-Tech to rank Plurilock AI as a gold medalist and quadrant champion for value and customer satisfaction in both 2023 and 2024.¹

Proven Management Team

Ian L. Paterson CEO

15-year analytics entrepreneur, proven track record in commercializing data science solutions and landing multi-million dollar accounts.

Scott Meyers, CPA CFO

20-year proven financial leader, with experience in a number of industries, driving profitability, and navigating complex M&A activities.

Tucker Zengerle COO

20-year operations expert with experience in scaling operations and driving company growth in the financial sector, with roles in banking, private equity, and cybersecurity.

QOMPLX:

World-class Directors and Advisors

Ali Hakimzadeh, CFA
Executive Chairman

25 years of corporate finance and investment banking experience, involved in over \$1B in small cap financing and M&A across North America. Formerly served as Chairman of **HS GovTech** (HS) before sale to private equity.

Jennifer Swindell
Independent Director

Formerly Senior Vice President at **Perspecta** and **Booz Allen Hamilton**, and as a **U.S. Navy** Special Operations Officer. Jen has led strategic initiatives to provide life-cycle security services support to U.S. government agencies.

VADM Mike McConnell (Ret.)
Retired Director, Chair of Advisory Council

Former **Director of National Intelligence** under presidents George W. Bush and Obama and former **Director of the National Security Agency** under presidents George H. W. Bush and Clinton. Vice Chairman at **Booz Allen Hamilton**.

Ed Hammersla
Independent Director

Formerly head of **Raytheon Cyber Products** and President of **Forcepoint Federal**. Ed held a leading role in developing SELinux and has held leadership positions with IBM, Informix Federal, NEC, and Trusted Computer Solutions.

Blake Corbet
Independent Director

SVP Corp. Dev. Officer at **HEALWELL AI**. Previously co-Head of Investment Banking at **PI Financial Corp.**, and has held senior investment banking positions at **Haywood Securities**, **CIBC World Markets** and **Salomon Brothers** over the last 25 years.

Joe Sexton
Strategic Advisor

Former president of Worldwide Field Operations for **AppDynamics**. Former EVP at **McAfee**. Past executive positions at **Cisco**, **EMC, CA**, and **Mercury Interactive**. Board member at **Laconic**, **Aqua Security**, **Xfactor**, and **Menlo Security**.
